NEW: Kaki

Exotic, light and fruity – with its pleasant sweetness and vanilla notes, dried kaki is a delicious soul-food, perfect for those with a sweet tooth, who prefer their snacks to be healthy. Whether a stand-alone snack, chopped up in a (breakfast) bowl or as a topping – the kaki is a real all-rounder that sweetens any moment.

NEW: Crunchy Fava-Snack

Crunchy fava beans, crispy chickpeas and roasted salted almonds are combined to make this unique, salty snack. The fava bean is well known from the bars of South America and now we have also added it to our range to give the Crunchy Fava snack that extra crunch. The perfect evening nibble, for those who like to try something new.
