

ZDS – Academy of Sweets

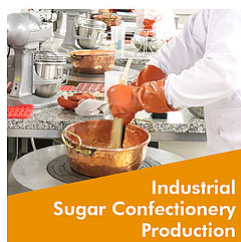

Web-Seminar: From Cannabis to Confectionery

Join the web seminar "From Cannabis to Confectionery: How CBD, THC and Hemp are Revolutionizing the World of the Food Industry" from 23.05. - 24.05.2023 and discover the latest trends in the industry. With top experts from the world of functional confectionery, participants will learn about the latest developments and uncover exciting challenges and opportunities in this rapidly growing sector.

Industrial Chocolate Manufacturing

The ZDS will offer the established intense practical course in chocolate manufacturing once again from 26.06. - 14.07.2023. It is one of the most important technical seminars to produce chocolate industrially from the bean to cocoa mass and chocolate and to transform the chocolate by tempering and molding to tablets and filled chocolates. This three-week intensive course takes place at the ZDS in Solingen.

Industrial Sugar Confectionery Production

This intense practical course from 14.08. – 25.08.2023 provides the founded knowledge of sugar confectionery production. Participants will learn the raw materials and production techniques of hard candies, toffees, fudges and chewy candies, gummies and jellies, as well as sugar-free and sugar-reduced products. Participants get to know the ingredients and production techniques in detail.

Congress: Inter Praline

Inter Praline is the world's recognized congress for trends, new raw materials, recipes, technologies and processes for the production of chocolate pralines. From 06.12. – 07.12.2023 the chocolate and praline industry meets at the ZDS. Whether from science, production, product development or quality management - this congress has something interesting for everyone.
