Em-eukal Ginger-Turmeric – variety of the year

The superfood trend is now also on the candy shelf! Several superfoods are now combined in the variety of the year of Em-eukal cough drop: spicy ginger with turmeric filling + lemon. In addition, this product stands out due to the new bag material with a high paper content (85%) which makes it easily recyclable. It can be disposed of in paper bins.

Em-eukal Gumdrops with ginger and turmeric

Those who prefer chewing instead of sucking can use the Em-eukal Gumdrops Ginger Turmeric. Thanks to intensive candying with ginger extract, the spiciness is immediately noticeable on the tongue. Inside, a fruity mixture of lemon, turmeric and ginger is convincing. The Gumdrops are completed by vitamin C and zinc.

Em-eukal ImmunStark – fruity herbal drops

A healthy plus for the immune system!* These gumdrops in three delicious flavours orange-sage, cherry-thyme and currant-ribwort are refined by a fresh note of menthol and contain vitamin C, vitamin D3 and zinc. Ideal for the cold season!

*Vitamins C and D3 as well as zinc contribute to the normal function of the immune system.

Em-eukal Eucalyptus – our all-time classic!

Our Classic cough drop is known for its strong combination of eucalyptus oil and menthol. And therefore ensures a special flavour and effective relief whenever and wherever you need it. Still faithful to the original German recipe developed by Dr Carl Soldan in 1923.
