NATURAL CRAZY & NUTS

Natural crazy & nuts!

The application portfolio of the silky fine Lemke Mustöppe promises no more or less. Particularly suitable as an ingredient for pastries, ice cream, as a topping for bowls, fruit salads, porridge or as a base for sauces, dressings and dips. Enjoyment kissed by the muse. Almond protein or hazelnut flour makes almond or hazelnut drink, with a more intense taste than other comparable products. Add a little Glow to your salads and bake goods. The intense taste will bring your sweet and savory dishes to the next level. No additives, 100% Pure.

MARCI UNDER COVER

Marci under cover

Snacking on the go. Thin, fine marzipan bars covered in dark chocolate, are the perfect companion to face the daily challenges and to check in for a little break. Even non marzipan lovers changed their minds and appreciate the little treats especially the fruity varieties.

BAKE FOR GOOD

Bake for good

The right taste for every type. Marzipan for fragrant baking tricks or to eat right away. There is no comparable marzipan in the market which hits the spot just like the little ones. Easy to apply to cover cakes, for modeling purpose as well as for chocolate fillings and of course baked goods.

BE SPOONTANEOUS

Be spontaneous

Hop on the coconut cruise and delight your mornings with a little crunchy twist. Sweet cravings at noon? Never mind, spread a little extra creamy deliciousness whenever you want to go on a Berlin-Trip. Warning: May lead to dipping addiction!
