## Klett Santa 130g

Starting with Christmas 2022 we present our 130g Santa in our new uniform Brand-Design. In addition to our tasty milk chocolate, the Santas are also available in white chocolate and dark chocolate.

## Klett solid baubles

Our delicious Klett chocolate is also available in the form of solid baubles. The baubles have a weight of 6.8g and can be offered in different colours and packaging.

## Klett organic

Due to our large variety of chocolate moulds, we now also offer a larger selection of figures in certified organic chocolate. In addition to the decorated hollow figures, there are also figures in aluminum available.

## Klett soccer ball

Why not have chocolate with the soccer match? We offer the right choice, from small to large. Enjoy!
