Peter Kölln GmbH & Co. KGaA

Passion for Oats – since 1820

At Peter Kölln, a family-owned company with more than 200 years of experience in producing oats, we believe in the goodness of this particular grain. Thus, all our products are based on oats and they benefit from a high wholegrain amount as we always use the whole grain for our products.

NEW: Porridge

Based on delicate wholegrain oat flakes and soluble wholegrain oat flakes, Kölln® Porridge products are compositions with different delicious flavours which can be served chilled or heated as especially creamy porridges. By using only natural ingredients – no added aroma, no added salt – Kölln® Porridge varieties are not only a quick and tasty breakfast but also an enjoyable snack.

Oat Flakes and Traditional Oat Cereals

Kölln® oat flakes are always 100% wholegrain. This way all the vitamins, nutrients and minerals naturally contained in oats are preserved, making oats an important part of a wholesome diet. Kölln® oat cereals are an ideal alternative to sweet cereals, as they are convincing with a wholegrain content of 65 up to 70%. In addition, they do not contain any added aroma and are rich in fibre.

Traditional Oat Mueslis and Oat Granolas

All our muesli mixes are based on wholegrain oats as oats are not only a classic but also an especially valuable muesli grain. Our mueslis can be enjoyed either for breakfast or as a delicious snack in between, with milk, juice or yogurt or also as a topping on desserts.
