

Pit Hoffmann GmbH & Co. KG

Especial No2 - 55% fine flavoured cocoa from Ecuador

Our vegan organic raw cacao powder made from Arriba Nacional raw cacao beans is produced from one of the best cacao varieties in the world. This fruity and floral noble cacao variety has a unique flavor profile. "Raw" means that the cacao beans are fermented after harvest, but not roasted (below 42° - 47°C). This cacao thus retains more of its valuable active ingredients. The cacao from this project comes from organically managed forests and grows among other hardwoods. Available in 250g tins and 25g sachets.

Mekong - Lemongrass

This fine cocoa is reminiscent of a holiday in Asia, subtly composed with the taste of refreshing, citrusy lemongrass and a hint of chilli. Of course, this new variety is also packed in the recyclable cans noble and sustainable. Available in 250g cans and 25g sachets.

The Becks cocoa™ Advent calendar 2023!
