Luxury Nut and Raisin Mix

Hazelnuts, almonds, cashews, walnuts and raisins come together in Seeberger's Luxury Nut and Raisin Mix to create the typical nutty and fruity taste impression. This combination with its balanced mix proportions is our bestseller for a good reason! It is the classic among the nut and fruit mixes!

Mango

Our mango does not only look perfect, but more importantly, they taste that way too: as if sun-kissed! The vibrant yellow-orange strips of the popular fruit bring a taste of the summer and heat they ripened in, even to the rainiest day or the most unusual place. The ultimate fruit taste experience in a 100% recyclable bag.

Just Roasted Luxury Nut Mix

We have combined our favorite Seeberger nuts to create this mixture. It includes crunchy roasted almonds and cashews, mild pecan nuts and peanut kernels to create a unique flavor experience without using any salt or other preservatives. Enjoy sharing a fun snack with your favorite people!

Bio Cashew Nuts and Mango

In its quest for excellence, Seeberger presents its new range featuring a varied choice of certified organic products. High-quality Seeberger raw material from organic farming found in unsalted mixes and mono products for natural, healthy, vegan with no added preservatives and flavoring snacks.
