The Sour Strawbies will make the hearts of all flexitarians, vegetarians and vegans beat with excitement! The pack comes in a variety of fresh, bright green colors that will heighten your craving for sour fruitiness! As soon as the pack is opened, it unleashes an intensely fruity strawberry scent that is hard to resist and the strawberry flavor provides a summer feeling all year round. The new giant strawberries are both slightly firm and yet elastic.

## Frighteningly fruity: Trolli Tarantula

The spooky Trolli Tarantula in a 150 g bag is joining the funky Halloween range. Everyone's not-so-favorite nocturnal animal stands out in fruit gummy form with its detailed spider body, large eyes and piercing fangs. Great attention to detail, from the patterned body to the limbs, makes the Trolli Tarantula an absolute eye-catcher at any Halloween party. These giant spiders also score points with their four fruity flavors: raspberry, blackberry, strawberry and orange.

## Melon mania with Trolli Watermelon Splash

The new Trolli Watermelon Splash is an absolute highlight. Its cool 3D watermelon look, with small seed symbols on the packaging, shows the attention to detail. The real splash comes when you bite into the green melon ball: the refreshing, sour filling reveals the intense taste of watermelon, one of the most popular summer fruits. Individually wrapped in a brightly colored 75 g bag with cheeky watermelon faces, Trolli Watermelon Splash radiates a crazy good summer mood.
