## XOX Bean Snack Oriental 70g - Bean snack with oriental flavour

The XOX Bean Snack consists of regional field beans from the Weserbergland region. This snack is high in fiber as well as rich in proteins, because the whole bean is processed with shell and seedling. Moreover the snack has less fat than comparable products, because it is baked instead of deep-fried. A crispy, light power snack for nutrition-conscious gourmets.

## Pink Lady Apfelchips 40g - Dried apple slices

Germany's most popular apple is now available as a delicious and healthy chips snack. It has a fresh, slightly sour and at the same time typical sweet Pink Lady taste. The crispy and thin slices are perfect for conscious gourmets, because they are gently dried and without artificial additives or flavourings. Compared to other apple chips they come without core and contain only 0.1% water.

## XOX Pommes Chili Cheese 100g - Chili cheese flavoured corn snack

The XOX Chili Cheese Fries transform the popular spicy-cheesy fast food taste into a crunchy snack format. The snack offers full enjoyment for all french fries lovers. The crispy fries, seasoned with real cheddar and jalapeno, are ideal in their handy size for snacking in between meals or as a fun munchie for a nice evening.

## XOX Cheese Snack 90g - Corn snack with cheese flavour

The XOX Cheese Snack is baked in the oven and not deep-fried. This makes the snack lower in fat than conventional snacks. The ruffles are flavored with real cheese and are particularly crunchy and creamy. The snack comes without flavor enhancers and artificial colors – therefore it is the perfect snack for every occasion.
