

ZDS – Academy of Sweets

About the ZDS

The ZDS offers training courses, seminars, workshops and congresses for the entire confectionery industry. The courses and seminars cover basic knowledge as well as current special topics in all areas of confectionery and food production. The learning contents are immediately put into practice in the technical departments.

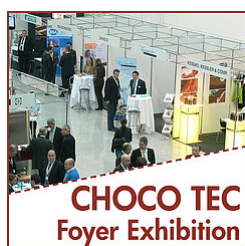

INTER ICE 2022 - conference of sweet coolness

INTER ICE Conference will take place at the ZDS from 25th to 26th October 2022. Functionalities and nutritional values of ice cream are coming more and more into focus. In this seminar, the latest developments on ice cream research and technology will be presented by known experts from research and practice. Look forward to the foyer exhibition and lots of networking.

CHOCO TEC 2022 - chocolate community at its best

CHOCO TEC is one of the most successful congresses and network platforms for the chocolate industry. At this highlight from 13th to 15th December 2022 at the Congress Centre Cologne, you will get a great overview of current trends, innovative technologies, sustainability and much more. The program provides a comprehensive insight into topics which have been the current demands of the industry.

CHOCO TEC Foyer Exhibition

During the entire event, an industrial exhibition is held, which has become an important part of CHOCO TEC. The approximately 50 exhibitors from all over Europe have the opportunity to present their companies, products or machines to an international audience. Some of the exhibitors will present their innovations in short presentations during the generously dimensioned breaks.
